

# Infosec Registered Assessors Program (IRAP)

Do you have what it takes to become an IRAP Assessor?

Only experienced individuals with the right knowledge and eligibility can apply to become an IRAP Assessor. If you've got what it takes, becoming an IRAP Assessor can give you an edge in your career and help your organisation to stand out.

## IRAP New Starter Training

This 5-day course combines traditional facilitation, workshop activities, group discussions and more to build an in-depth understanding of IRAP, the Information Security Manual (ISM), and the policies required to conduct an IRAP Assessment.

## Why train with CIT Solutions?

### Industry Expert Facilitator

High-quality training methods and industry-experienced facilitator.

### Accredited & Recognised

Approval RTO and one of only two ASD-endorsed providers for the IRAP Assessors training in the country.

### We Train the Trainers

Delivering high-quality training solutions for 34 years both nationally and internationally, our expertise goes beyond cyber security - we're also experts in training, armed with a knowledgeable team and the right pedagogy to train trainers.

### Exceptional Study Support

100% course completion rate for our IRAP New Starter Training by understanding and continuously supporting different learning styles.

### Learn Your Way

Virtual delivery and face-to-face learning available. Study in-person or online with a range of dates throughout the year.

## What is IRAP?

IRAP is a specialist training opportunity for experienced cyber security professionals. Endorsed by the Australian Signals Directorate (ASD), becoming an IRAP Assessor allows you to provide high-quality, industry-standard security assessments. On successful completion of the training and the exam, you may apply to become endorsed as an IRAP assessor through [www.cyber.gov.au](http://www.cyber.gov.au)
