

Guide for connecting to CIT Public wireless

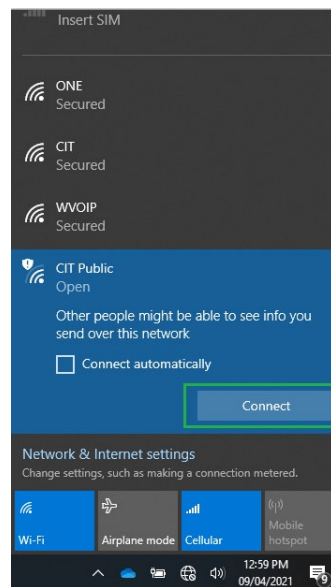

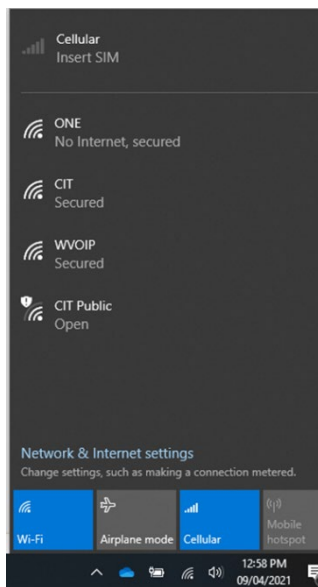

Connecting to CIT Public is relatively straight forward. Below are the steps to allow Internet access over CIT Public.

It should be noted that currently this is only available in the following locations at CIT Bruce. Moving out of these areas will disconnect the user from ICT Public:

- H Block Ground Level (all areas)
- H Block Lower Ground Hall
- C Block (all levels and areas)
- J Block (all levels and areas)
- X Block (all areas)

Connect to CIT Public

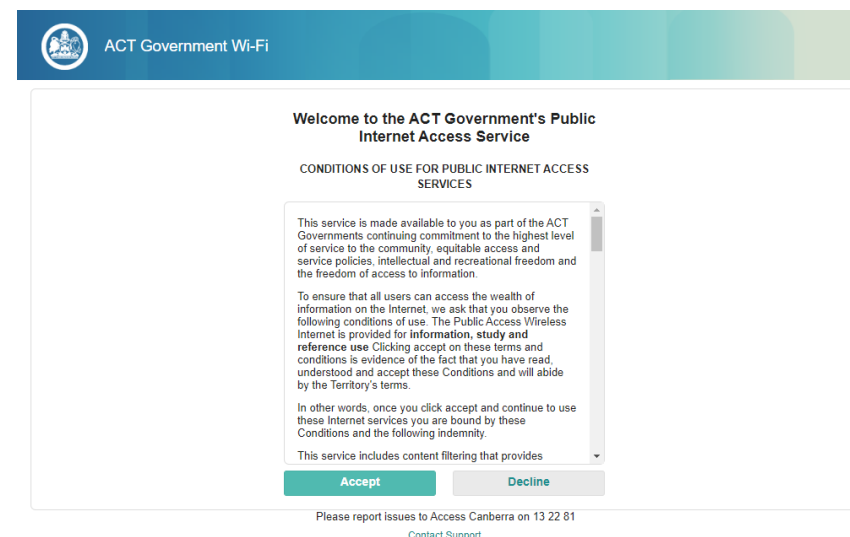

Staff, Students, Learners, and Public will now see a Wireless Connection called CIT Public. Simply click of this and then Connect. It is recommended to NOT to select 'Connect Automatically' for personal security.

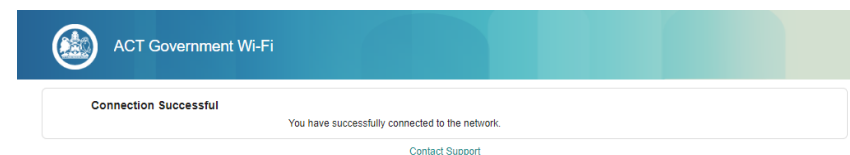

Accepting Conditions of Use

Once the device has connected to CIT Public, a website will automatically open which will request the user to accept the Conditions of Use. It is advised that the user read these conditions before accepting.

Upon accepting the conditions of use, the device should connect to CIT Public and present a confirmation page stating it has connected successfully.
